

Partner of the Federal State of Berlin and the Cultural Life in Berlin

Kulturprojekte Berlin is a state-owned, non-profit organisation working for the promotion, networking and dissemination of culture. The company organizes major projects and coordinates theme years and anniversaries such as the Long Night of Museums, Berlin Art Week or “25 Years Fall of the Wall”, Berlin’s anniversary project 2014. As an experienced partner of Berlin culture and the federal state of Berlin, the organisation assumes responsibility for museum and exhibition services, develops and looks after programmes of cultural education and acts as host for legally dependent venues and festivals such as the transmediale. A growing business area is the various online portals that connect stakeholders in the fields of art, culture, education and creative industries. In the new counselling centre “Kreativ Kultur Berlin” creative artists and entrepreneurs can take legal advice free of charge.

Moreover, Kulturprojekte Berlin continuously occupies itself with issues surrounding dissemination and communication in the context of the arts and cultural industries. The central office of the Berlin Project Fund Cultural Education is also located here.

Each project is supervised by a specific team, thus perfectly combining professional capability and experience, acquired over years of involvement in the Berlin cultural network. The designated investment in establishing cultural networks in Berlin, through the funding of this organisation, is unique within Germany.

Furthermore, the organisation is located at the Podewil in Berlin-Mitte and is likewise responsible for its facility management. The GRIPS Theater is using the house as a second venue. Festivals, conferences and workshops in the surroundings of the cultural education are regular guests at the Podewil, for example the TUSCH Festival Week, the nationwide Festival of theatre “Augenblick mal!” for a young audience and the Berliner Children’s Congress.
